Vedic Astrology & Dharma

Gaining Clarity on your Life's Path

Course Outline

This is an astrological course on dharma or life-purpose. It also involves a 20 minute astrological reading of your personal chart by me that relates to the key themes of outlined in this course (this is done by via audio recording). The course dives into Jupiter, Saturn, Rahu & Ketu as well as the first house to explore symbolism as it relates to your own dharma or life's purpose. These four pillars can help you to see what themes there are in store as it relates to personal growth and expansion. There will be example videos of charts relating to these four pillars as well as articles associated with each pillar. This is not a course that will simply 'tell' you what your dharma is – dharma is that which simply brings one closer to your Divine blueprint. A person's individual life path has many seasons and phases. The astrological symbolism can help one see areas of personal dharmic growth as well one's capacity to relate and embrace that growth. The course also explores ways to remedy poor astrological indications to help one be more clear with right guidance as it relates to their own individual dharma.

Regarding the 20 minute astrological mini-reading, please email me at scott@anandacollege.org with your birth details: birth date with written month, example: May 2nd, 1989, Place of birth (including hospital), and time of birth. I will then record an audio of me reading your chart and it will be emailed back to you. Details regarding when it will be done will be sent to you after I am emailed your birth data.
